

Luscombe 8

To: All BAS-Serco employees and anyone you think may be interested

Frank Williams, Vice President & Chief Executive Officer

Date: 26 January 2010

Subject: Restoration of VR-BAK

The journey to restore the Luscombe 8 back to its former visual glory has started in earnest

Having secured a location just before Christmas the volunteers came out last Saturday and started the cutting and grinding on VR-BAK

We started with opening up the wings and assessing the corrosion

We cut out the corrosion from the fuselage which now waits for a new section to be made and installed

This coming weekend the fun continues starting at 2.00pm on Saturday

Volunteer teach or learn new skills

Up coming jobs range from sanding, panel beating, fibre glassing, etc and anyone can learn how

Steve O'Really

volunteering from Ireland

Michelle and her father in law

Please let me know if you will be coming this weekend
Cheers Frank
