

Luscombe 8A

To: The Restoration volunteers, BAS-Serco employees and anyone you think may be interested

Compiled By Frank Williams, Having Fun

Date: 07 May 2010

Subject: Restoration

Rebuilding Bermuda Aviation History

We get to pick up the last two weeks of work

The big day finally came to see if the wing would fit

Yes it did however there were two weeks between these pictures as the reinforcement we had put into the wing we not quite enough to hold the weight so a few more strips of aluminium were installed

Along with more sanding and filling

The fun continues

Saturday from 2.00 pm
please let me know if you will be attending

Cheers Frank
